PROFESSIONAL SUMMARY

PMP®-certified Project Analyst with 5+ years in the Copperbelt mining industry (Kamoa Copper SA, Ivanhoe Mines group), focused on project data consolidation, performance analysis and management reporting. Experienced in tracking cost, schedule, progress and procurement across multiple concurrent site projects, and in building Power BI, Power Query and Excel dashboards that turn project and portfolio data into variance analysis, trend analysis and clear exceptions for management decision-making. Daily MS Project user, Primavera P6 for core scheduling tasks, basic SAP knowledge. Known for rigour, data accuracy and confidentiality.

CORE COMPETENCIES

Project Controls | PMO Reporting | Portfolio Performance Analysis | Cost, Schedule & Progress Tracking | Earned Value Management (CPI, SPI, EAC) | Variance & Trend Analysis | Forecasting | Budget vs Actual vs Commitments | Data Consolidation & Validation | Data Quality | Power BI Dashboards | Power Query | Advanced Excel | PowerPoint | Reporting Automation | Steering Committee Reporting | Project Governance | Risk Tracking | Continuous Improvement

PROFESSIONAL EXPERIENCE

Officer, IT Site Support & Project Expeditor — **Dec 2021 – Present**
Kamoa Copper SA (Ivanhoe Mines group), Kolwezi, DRC

- Support the delivery of multiple concurrent site infrastructure projects (fibre backbone, LAN, Wi-Fi for new workshops and facilities) from scope definition to commissioning.
- Consolidate scopes of work, bills of materials, contractor quotations and cost estimates into structured project records for IT and engineering approval.
- Validate project data by cross-checking quotations against scope and bills of materials (quantities, unit costs, completeness) and resolving inconsistencies with stakeholders.
- Expedite purchase orders and follow up supplier confirmations and contractor deliverables to protect project schedules.
- Plan and track activities in MS Project (Primavera P6 for core tasks), monitoring physical progress against plan and flagging delays and risks to management.
- Build Power BI and Excel reports and automate recurring workflows with Power Automate and SharePoint, reducing manual reporting effort.
- Manage incidents and service requests in ManageEngine Service Desk in line with ITIL® 4 practices.

IT Intern — **Mar 2021 – Sep 2021**
Kamoa Copper SA, Kolwezi, DRC

Volunteer Project Manager & Certification Manager — **Nov 2024 – Present**
PMI DRC Chapter

- Managed the KCC17726 PMP® certification program: 95 participants, 4 cohorts, USD 171,000 budget, with a team of 4 coaches and trainers.
- Built the program monitoring suite: project charter, stakeholder register, risk register, participant tracker, communication plan, lessons learned register and milestones extracted from MS Project.
- Produced weekly status reports and the formal closure report for the Chapter Presidency and program stakeholders.
- Designed the Chapter Presidency SharePoint site to structure governance documents and reporting.

PMI Authorized Training Partner Instructor (PMP® & CAPM®) — **Current**
SORACERT

- Deliver PMP® and CAPM® exam preparation aligned with PMI standards: cost and schedule management, earned value, risk and governance.

IT Consultant & Microsoft Trainer (part-time) — **Mar 2023 – Dec 2025**
Prtech-Group Africa, Lubumbashi / Kolwezi, DRC

- Delivered Microsoft 365, Excel and Power BI training and digital transformation consulting; developed business applications (stock management, invoicing) with Python and SQLite.

Freelance Digital Specialist — **Jun 2019 – Sep 2021**
LUALABANEWS.NET

KEY PROJECTS

Mining PMO Portfolio Dashboard – Power BI, DAX, Power Query, Python (2026)

github.com/harold92342/mining-pmo-dashboard

- Built a 6-page Pulse, Diagnose and Decide dashboard for a 32-project mining capital portfolio, linking cost and schedule performance to maintenance, processing, safety, risk and change control.
- Developed snapshot earned value measures in DAX (PV, EV, AC, BAC, EAC, CPI, SPI, forecast overrun) for budget vs actual vs forecast and variance analysis.
- Consolidated 11 source tables into a star schema (5 dimensions, 7 facts); in Power Query, removed man-hours and incidents booked after project closure to correct the safety KPI.
- Reconciled every KPI against independent Python calculations; built a steering-committee decision rule (Accelerate, Sustain, Recover, Pause, Terminate), drill-through project detail pages and exception tables for overdue mitigations.

Copperbelt GeoAI – Python, Isolation Forest, Streamlit

- Anomaly detection on mining data, published as an interactive dashboard (github.com/harold92342/copperbelt-geoai).

EDUCATION

MBA, Data Science Management – TECH Universidad Tecnológica, Mexico | 2026 – 2028 (in progress)

Bachelor's Degree, Network & System Administration – ESISALAMA (UDBL) | 2019

CERTIFICATIONS

- Project Management Professional (PMP®), PMI – #4126576
- PMI Authorized Training Partner Instructor – PMP® & CAPM®
- Lean Six Sigma White Belt
- ITIL® 4 Foundation
- Microsoft Certified Trainer (MCT), 2026 | AB-731 AI Transformation Leader, 2026
- PL-300 Microsoft Power BI Data Analyst (in progress)
- Cisco CCST Networking | Cisco CCST Support Technician

TECHNICAL SKILLS

Project controls: MS Project (advanced), Primavera P6 (core tasks), SAP (basic), earned value, cost/schedule/progress tracking, variance analysis

Data & reporting: Excel (advanced), Power BI, DAX, Power Query, PowerPoint, Python (pandas), SQL (SQLite)

Automation & collaboration: Power Automate, SharePoint, MS Planner, ManageEngine Service Desk

Languages: French (native), English (fluent), Swahili (fluent)
